We are happy to see a strong start to the year and are excited by the continued buoyancy in the overall market and continued strong and growing relationship with our Suppliers.

We are pleased to report an improvement of Rs 46 Crore in free cash flow generation Y-o-Y (Trailing Twelve Month basis). IntraSoft Technologies Limited Reports Revenues of Rs. 260 Cr. for Q1 FY2017-18

Our Working Capital Cycle continues to improve. Working capital requirement reduced to 16 days in TTM Q1 FY-18 in comparison to the 22 days of requirement in TTM Q1 FY-17, an improvement of 27% Y-o-Y, whilst having grown revenues.

The Company continued to focus on improving its inventory performance using its proprietary technology. This enabled the Company to improve its Inventory Turnover, average (Trailing Twelve Months) to 15.5 from 13.4 in the previous quarter. This led to an improvement in inventory days from 27 days to 24 days.

The Company also continued its focus on improving supplier credit. There has been a steady increase in suppliers extending higher credit terms as the year progresses. Accordingly, Accounts Payable Days will start showing an improvement during the course of the year as improvement in supplier credit is procedural.

During the quarter, steady growth was visible in the product and supplier addition across all product categories displaying a healthy mix of products.

The current quarter saw record sales on Prime Day. Overall, we are excited about our performance in the quarter and the market opportunity ahead as we continue to gain market share and grow.”
