The decrease in General and Administrative Expenses is primarily due to savings in rental expenses as compared to the previous year.

The Employees cost increased during the quarter due to increase in number of employees on account of growth in the Company's business operations.

Depreciation expenses have increased significantly during the quarter due to the additional investments made in the technology infrastructure during the last 2 years, the purchase of the office premises as well as new furniture and fixtures. The Company will have to bear a higher depreciation expense over the next few quarters till the same is balanced out. Being a non-cash expense, this will not have any adverse impact on the Company's operations.

#### **MANAGEMENT'S STATEMENT:**

Commenting on the results, Mr. Arvind Kajaria said, "We are pleased to present our results for the quarter ended 30<sup>th</sup> June, 2012. The performance of the 1<sup>st</sup> quarter highlights the continued success of our E-commerce business. In some sense this has been a watershed period and we truly recognized the vast potential which has encouraged us enough to commit ourselves to grow this business to greater heights. Our past investments in backend software and systems has yielded the anticipated results.

We believe that we have managed to carve out our niche in the ever growing E-commerce market. As more and more consumers shop online, requirements of a more robust and stringent digital infrastructure will be of a paramount importance. Our ability to scale our services, providing a larger selection of products, efficient customer service, quicker delivery schedules and better prices will help us attract larger volumes. As we continue to invest deeper into our services on a daily basis, our top-line and bottom-line will continue to grow.

The greetings business continues to do well with all round growth in our products like Studio, Connect and Invites. The Company has conceived its mobile strategy and we anticipate its launch in Q3.

The Company saw significant growth in its Total Income as well as Profit from Operations during the Quarter. The Company will have to bear a higher depreciation expense over the next few quarters till
