The performance of the 4th quarter showed the continued growth in our E-commerce business. In this quarter there was an impressive growth in Vendor tie-ups and addition of new Customers. Our past investment in backend software and systems has yielded the anticipated results. As we continue to invest deeper into our services on a daily basis, our revenues and profits will continue to grow.

Key non financial and operational but important factors which contributed to the above growth are:-

 88,617 orders were shipped from 123Greetings Store, the online gifting e-Commerce business, during the quarter, averaging approx 985 orders / day, as compared to 485 orders / day in the corresponding quarter of last year.

- As on March 31, 2014, 123Greetings Store's product catalog had 129,129 products, which were listed at 554,397 places across its website & other marketplaces.

- 123Greetings ecards business strengthened its regional language content library with 241 new ecards across Russian, Mandarin, Spanish, German, French and Hindi languages for key holidays and occasions, versus 118 ecards last quarter.

Growth in the mobile apps business has been promising, and investments are being made to scale-up 123Greetings' presence and market share on mobile devices. This is helping us reach out to new customers and expand our user base. Additionally, the Studio and Connect products are being strengthened further to support the growth with phenomenal content and value-added features for regular and bulk users."

FY2014 CONDENSED FINANCIAL STATEMENT OF OPERATIONS

Total Income:

(Rs. in Lacs)

| Particulars | FY 2014 | FY 2013 | Growth (%) |
|--------------|-----------|----------|------------|
| Total Income | 14,840.02 | 8,824.21 | 68.17% |

The Company generates revenue primarily from online advertising sales & online retail sales.

The non financial factors as stated above in the Management Statement have also contributed to the increase in revenue.

Additionally, the investments being made continuously by the Company in its technology

infrastructure have started yielding impressive results. The Company has been able to scale its operations to handle the additional order volumes seamlessly.

Expenditure:

(Rs. in Lacs)

| Particulars | FY 2014 | FY 2013 | Growth (%) | |
|-------------------------------------|-----------|----------|------------|--|
| | | | | |
| Product & Content Development | 10,773.18 | 5,939.87 | 81.37% | |
| Sales and Marketing Expenses | 2,119.08 | 1,178.90 | 79.75% | |
| General and Administrative Expenses | 1,035.79 | 577.66 | 79.31% | |
| Employee Benefit Expenses | 1,213.09 | 525.09 | 131.03% | |
| Depreciation | 402.11 | 704.73 | -42.94% | |
| Total Expenditure | 15,543.25 | 8,926.25 | 74.13% | |

The Company has experienced growth across its entire product lines and accordingly the expenses on account of Product & Content Development, Sales & Marketing, General and Administrative & Employee Benefit Expenses have increased. While some of the expenses are on the higher side, these expenses were necessary keeping in view the future growth prospect in terms of revenues and profits in the subsequent quarters.

Product & Content Development expenses increased due to increase in costs to handle additional capacity of orders and related shipping charges.

Increase in General and Administrative expenses are primarily on account of recognition of Exchange Loss, coupled with increase in travelling expenses incurred for increasing the Company's global presence and penetration into New Markets.

Employee Benefit Expenses increased due to pay revision of the existing employees and hiring of new talents, for keeping up pace with the growth in the Company's business operations, which results into increase in monthly payouts.

Operating EBITDA:

(Rs. in Lacs)

| Particulars | FY 2014 | FY 2013 | Growth (%) |
|------------------|---------|---------|------------|
| Operating EBITDA | -186.90 | 602.69 | -131.01% |

Operating EBITDA is defined as Total Income less Total Expenditure, without considering Other Income, Depreciation and Interest. The Company tracks Profit from Operations as a measure of core performance of its business activities. During this year the Operating EBITDA for the year decreased to Rs. (-) 186.90 Lacs as compared to Rs. 602.69 Lacs in the last year.

Operating EBITDA is down as the Company continued to invest in building up its operations to be able to service higher volumes which is evident from the operational highlights presented above. This resulted in higher operational costs incurred on additional manpower & systems. Given the nature of online sales, the Company increased its staff and other ancillary functions. The Company has appointed an investment banker to source capital for the e-commerce portion of the business. This will help achieve even higher scalability for the Company.

Exceptional Item:

As part of the on-going review of operations & existing activities, the management reviewed the entire IT resources of the Company. Based on technical assessment, Management found that certain IT resources had outlived their utility and had been rendered obsolete due to changes in technology.
